

ROOFING SAFETY FOR CONSTRUCTION WORKERS

September 2023

Your crew works hard to get ahead, but never forget... their health and safety is priceless.

1 in 10 fatal falls, slips, and trips happen among roofers¹.
6 out of 10 roofers are Hispanic workers².

All Falls Can Be Prevented:

- Plan how you will prevent falls before starting a project. Eliminate or minimize fall hazards when possible.
- Provide your workers with the proper tools and safety equipment needed to do the job safely.
- Provide training on how to use and inspect safety equipment in the languages used by your workers.
- Enforce safety regulations.
- Review regularly work practices that prevent falls.
- Clearly communicate non-retaliation policies and proactively encourage workers to report any safety issues.
