# CPP PARTNERSHIP

The Construction Partnership Program (CPP), offered by the KY Labor Cabinet's OSH Education and Training Division, is designed to reach out to general contractors working in Kentucky to help enhance overall safety and health on work sites. It is a great way to build a relationship with the OSH Education and Training Division and the consultants within the Partnership branch. Our goal is to help effectively reduce workplace hazards.

## PARTNERSHIP PROGRAM INCLUDES:

- Site-based, quarterly (minimum) audits during life of project
- Close working relationship with general contractor and subcontractors

## PARTNERSHIP PROGRAM BENEFITS:

- Significantly reduced site hazards
- Injury and illness rates
- Safety and health training
- Positive relationship building between industry and government

## DON'T JUST TAKE OUR WORD FOR IT

“Taking part in the Construction Partnership Program with KYOSH was a great experience for the management and workers of Dürr Systems while working at the Kentucky Truck Plant. The visits were extremely helpful in that they gave us the opportunity to walk side by side with the inspectors, which afforded us the rare chance to slow down and take a closer and more definitive look at our safety program.”

**Jeffrey Stokes Project Safety Manager  
Dürr Systems Inc.**

“Messer continues to participate in the CPP in order to improve as a company... More than anything, the CPP educates us so that we decrease our chances of an incident and increase our chances of going home safely at the end of the day.”

**Joey Summers, Senior Project Manager  
Messer Construction Co.**

## FREE ONLINE TRAINING

**KYSAFE** is a free online training resource for Kentucky employers and employees. Individual class modules are available to view 24/7 on a host of safety and health subjects. Live webinars provide participants an opportunity to learn and ask questions. Webinars are recorded and available for viewing at your convenience.

A cost-free source for online workplace safety and health training!
